## Subject Index of Articles*

### Counseling Concepts

OBJECTIVES
Counseling: philosophy or science, 11
Some ethical and scientific values in the counseling psychotherapeutic process, 15
The critical ninth grade: vocational choice or vocational exploration, 106
Occupational information for junior high school youth: introduction, 115
Developmental stage and developmental needs at the junior high school level, 116
Objectives of occupational information for junior high school youth, 118
Integrating occupational materials into the curricular process, 120
The use of occupational information for the junior high school age group, 124
Personal values and achievement in college, 137
Counseling the blind, 210
Personal responsibility, determinism, and the burden of understanding, 342
Counselors and discipline, 349
The place of the person in the new world of the behavioral sciences, 442
Psycho-social aspects of work: a critique of occupational information, 458
Guidance as behavior change, 550
The vocational adjustment shop, 630
School guidance: a four-dimensional model, 645
Student personnel work—future trends, 704
Barriers to effective rehabilitation: counselor opinion, 710

METHOD AND PROCESS
The impact of N.D.E.A. upon counselor preparation, 37
N.D.E.A.—Opportunities and responsibilities in test development and test use, 41
Counseling the blind, 210
Dissemination of guidance information using data-processing equipment, 220
Quantitative measurement in the initial screening of rehabilitation potential, 262
Personal responsibility, determinism, and the burden of understanding, 342
The relationship of discrepancies between interest and aptitude scores to other selected personality variables, 583
The place of the person in the new world of the behavioral sciences, 442
Guidance as behavior change, 550
Some fundamental propositions in the construction of evaluation units in vocational rehabilitation, 586
School guidance: a four-dimensional model, 645

WORKER
Counseling: philosophy or science, 11
Some ethical and scientific values in the counseling psychotherapeutic process, 15
Areas of preparation for school guidance workers, 45
The function of counseling as perceived by high school students, 133
Counseling the blind, 210
Organization of guidance for gifted children, 275
High school counselors evaluate their formal preparation, 303
Personal responsibility, determinism, and the burden of understanding, 342
The selection of school counselors, 355
Attitudes toward blind counselors in state rehabilitation agencies, 367

* The classification system followed in the subject index was developed by the Bibliography Services Committee of the Division of Counseling Psychology, American Psychological Association, Barbara A. Kirk, Chairman.

The place of the person in the new world of the behavioral sciences, 442
An evaluation of the lecture and role-playing methods in the development of interviewing skills, 583
Group guidance: two processes, 591
The effects of short-term group counseling on prospective counselors, 634
How parents perceive the counselor's role, 698
Student personnel work—future trends, 704
Barriers to effective rehabilitation: counselor opinion, 710
Factors influencing teacher attitudes toward and participation in guidance services, 729
The counselor's role in the early identification of gifted children, 735

## Personality

ORIGIN AND DEVELOPMENT
Organization of guidance for gifted children, 275
Variants of the psychopathic personality on the college scene, 497

ORGANIZATION
Some ethical and scientific values in the counseling psychotherapeutic process, 15
Relationship between leadership participation in college and after college, 110
Personal values and achievement in college, 137
Facade orientation and academic achievement, 283
Conformity and achievement in college, 361
The place of the person in the new world of the behavioral sciences, 442
Variants of the psychopathic personality on the college scene, 497
Guidance as behavior change, 550
Self-satisfaction and level of occupational choice, 595

CHANCE
Some ethical and scientific values in the counseling psychotherapeutic process, 15
Emotional problems of gifted students, 98
The critical ninth grade: vocational choice or vocational exploration, 106
Quantitative measurement in the initial screening of rehabilitation potential, 262
Personal responsibility, determinism, and the burden of understanding, 342
The place of the person in the new world of the behavioral sciences, 442
Variants of the psychopathic personality on the college scene, 497
Guidance as behavior change, 550
The effects of short-term group counseling on prospective counselors, 634

## Educational Adjustment

SUCCESS PREDICTION—LEVELS
A pilot study in local research with the differential aptitude test battery, 128
Low ability dropouts versus low ability graduates, 144
The use of discriminant analysis in the prediction of scholastic performance, 184
A mental maturity test as one criterion for admission to an American school abroad, 197
Use of M.M.P.I. items to predict college achievement, 215
Identifying college dropouts with the Minnesota Counseling Inventory, 280
Facade orientation and academic achievement, 283
Conformity and achievement in college, 361
Admissions and guidance research in the university system of Georgia, 452
Trends in college students' grades, 491
A discrepancy score method in predicting scholastic achievement of college freshmen counseled during probation, 725
The counselor's role in the early identification of gifted children, 735

SUCCESS PREDICTION—CURRICULA
The critical ninth grade: vocational choice or vocational exploration, 106
The use of discriminant analysis in the prediction of scholastic performance, 184
Selection of engineering students for an abbreviated mathematics sequence, 224
Evaluation of program adjustment for superior freshman students at a state university, 307
Worksample learning rates of the mentally retarded trainee as indicators of production in a work-training center, 396
Effects of short- and long-term developmental reading courses upon S.A.T. verbal scores, 654
Educational experiences, academic interests, and curriculum choices, 717
The differential validity of the college qualification tests for diverse curricular groups, 721

ADJUSTMENT—OTHER FACTORS
An intensive vocational counseling program for slow learners in high school, 21
Emotional problems of gifted students, 98
Relationship between leadership participation in college and after college, 110
The function of counseling as perceived by high school students, 133
Personal values and achievement in college, 137
The self-concept of bright underachieving high school students as revealed by an adjective check list, 193
Organization of guidance for gifted children, 275
Working in private homes for room and board, 376
The relationship of discrepancies between interest and aptitude scores to other selected personality variables, 388
The WISC profile of disabled readers, 476
Variants of the psychopathic personality on the college scene, 497
Student perceptions of varied campus climates, 509
The use of the California Psychological Inventory with gifted pupils, 572
Problems of rural and urban southern Negro children, 599

STUDENT POPULATION ANALYSES
The critical ninth grade: vocational choice or vocational exploration, 106
The screening and referral function in a university study skills office, 145
A mental maturity test as one criterion for admission to an American school abroad, 197
Plans of Arkansas high school seniors, 300
Working in private homes for room and board, 376
Admissions and guidance research in the university system of Georgia, 452
Problems of rural and urban southern Negro children, 599
Student personnel work—future trends, 704
The deaf in American institutions of higher education, 743

## Vocational Development

OCCUPATIONAL CHOICE
- Occupational information for junior high school youth: introduction, 115
- Developmental stage and developmental needs at the junior high school level, 116
- Objectives of occupational information for junior high school youth, 118
- Integrating occupational materials into the curricular process, 120
- The use of occupational information for the junior high school age group, 124
- Plans of Arkansas high school seniors, 300
- Persistence of vocational choice of the merit scholarship winners, 466
- Interpreting the college student to prospective employers, government agencies, and graduate schools, 576
- Self-satisfaction and level of occupational choice, 595
- The vocational adjustment shop, 630
- Influencers of occupational choice, 666
- Occupational choice in the Negro college, 739

OCCUPATIONAL CHOICE PREDICTION
- The critical ninth grade: vocational choice or vocational exploration, 106
- Quantitative measurement in the initial screening of rehabilitation potential, 262
- An index of ease or difficulty of rehabilitation, 352
- Worksample learning rates of the mentally retarded trainee as indicators of production in a work-training center, 396
- Occupational choice in the Negro college, 739

JOB SATISFACTION
- Job satisfaction researches of 1959, 47
- Psycho-social aspects of work: a critique of occupational information, 458
- Some fundamental propositions in the construction of evaluation units in vocational rehabilitation, 586

LIFE STATES OR WORK PERIODS
- Labor market participation of physically handicapped persons in Minnesota, 6
- Orientation of students employed as part-time office workers on a university campus, 222

## Adjustment Factors—Others

CULTURAL—ETHNIC
- Survey of student attitudes towards campus activities at the university of Hawaii, 292
- Problems of rural and urban southern Negro children, 599

PHYSICAL
- An index of ease or difficulty of rehabilitation, 352
- The vocational adjustment shop, 630
- The deaf in American institutions of higher education, 743

MENTAL
- An intensive vocational counseling program for slow learners in high school, 21
- Low ability dropouts versus low ability graduates, 144
- Use of M.M.P.I. items to predict college achievement, 215
- Selection of engineering students for an abbreviated mathematics sequence, 224
- The differential validity of the college qualification tests for diverse curricular groups, 721

EMOTIONAL—SOCIAL
- Emotional problems of gifted students, 98
- The screening and referral function in a university study skills office, 145
- The self-concept of bright underachieving high school students as revealed by an adjective check list, 193
- Conformity and achievement in college, 361
- The vocational adjustment shop, 630
- Influence of dogmatism on counseling, 662
- Counseling the adolescent girl on personal problems, 672

## Measurement

PSYCHOMETRY
- N.D.E.A—Opportunities and responsibilities in test development and test use, 41
- The use of discriminant analysis in the prediction of scholastic performance, 184
- Guidance as behavior change, 550
- Extra-measurement use of tests in counseling, 658
- A discrepancy score method in predicting scholastic achievement of college freshmen counseled during probation, 725

TEST SELECTION AND USE
- G.A.T.B. norms for lower high school grades, 30
- Testing the test: Stanford-Binet intelligence scale, 226
- Admissions and guidance research in the university system of Georgia, 452
- Guidance as behavior change, 550
- Some fundamental propositions in the construction of evaluation units in vocational rehabilitation, 586

## Tests

INTELLIGENCE
- G.A.T.B. norms for lower high school grades, 30
- The self-concept of bright underachieving high school students as revealed by an adjective check list, 193
- A mental maturity test as one criterion for admission to an American school abroad, 197
- Testing the test: Stanford-Binet intelligence scale, 226
- Plans of Arkansas high school seniors, 300
- Persistence of vocational choice of the merit scholarship winners, 466
- The WISC profile of disabled readers, 476
- Effects of short- and long-term developmental reading courses upon S.A.T. verbal scores, 654

PROFICIENCY
- G.A.T.B. norms for lower high school grades, 30

EDUCATIONAL APTITUDE
- G.A.T.B. norms for lower high school grades, 30
- A pilot study in local research with the differential aptitude test battery, 128
- The use of discriminant analysis in the prediction of scholastic performance, 184
- Trends in college students' grades, 491
- Differential validity of the college qualification tests for diverse curricular groups, 721

SPECIAL APTITUDE
- Selection of engineering students for an abreviated mathematics sequence, 224
- Worksample learning rates of the mentally retarded trainee as indicators of production in a work-training center, 396
- Predicting S.V.I.B. profiles of high ability male arts college freshmen, 650

PERSONALITY OR ADJUSTMENT
The self-concept of bright underachieving high school students as revealed by an adjective check list, 193
Use of M.M.P.I. items to predict college achievement, 215
Identifying college dropouts with the Minnesota Counseling Inventory, 280
Facade orientation and academic achievement, 283
Testing the test: Syracuse scales of social relations, 310
Conformity and achievement in college, 361
The relationship of discrepancies between interest and aptitude scores to other selected personality variables, 388
The use of the California Psychological Inventory with gifted pupils, 572

## Occupational Information

ROLE
Orientation of students employed as part-time office workers on a university campus, 222
Psycho-social aspects of work: a critique of occupational information, 458
Occupational information and pre-service counseling, 502
Self-satisfaction and level of occupational choice, 595

SOURCE AND DEVELOPMENT
Labor market participation of physically handicapped persons in Minnesota, 6
Job satisfaction researches of 1959, 47
Vocational guidance through fact and fiction, 670

MATERIALS
Job satisfaction researches of 1959, 47
Graduate training in industrial relations: an early look, 53
Psycho-social aspects of work: a critique of occupational information, 458
Occupational information and pre-service counseling, 502
Vocational guidance through fact and fiction, 670

DISSEMINATION
Occupational information for junior high school youth: introduction, 115
Developmental stage and developmental needs at the junior high school level, 116
Objectives of occupational information for junior high school youth, 118
Integrating occupational materials into the curricular process, 120
The use of occupational information for the junior high school age group, 124
Research by states on the teaching of occupations, 218
College courses in careers, 373
Occupational information and pre-service counseling, 502
Interpreting the college student to prospective employers, government agencies, and graduate schools, 576

## Process—Individual Counseling

RELATIONSHIP
Some ethical and scientific values in the counseling psychotherapeutic process, 15
The function of counseling as perceived by high school students, 133
Counseling the blind, 210
Organization of guidance for gifted children, 275
Counselors and discipline, 349
The place of the person in the new world of the behavioral sciences, 442
How parents perceive the counselor's role, 698

METHODOLOGY
The screening and referral function in a university study skills office, 145
Counseling the blind, 210
The place of the person in the new world of the behavioral sciences, 442
Occupational information and pre-service counseling, 502
Guidance as behavior change, 550
Referral information preferences of vocational rehabilitation counselors and ES placement personnel, 563
An evaluation of the lecture and role-playing methods in the development of interviewing skills, 583
Extra-measurement use of tests in counseling, 658
Influence of dogmatism on counseling, 662
Counseling the adolescent girl on personal problems, 672

PSYCHOTHERAPEUTIC TECHNIQUES
Some ethical and scientific values in the counseling psychotherapeutic process, 15
The place of the person in the new world of the behavioral sciences, 442
Variants of the psychopathic personality on the college scene, 497

## Process—Group Counseling

DISCUSSION METHODS
An intensive vocational counseling program for slow learners in high school, 21
Group guidance: two processes, 591

## Counseling Programs

COLLEGE AND UNIVERSITY
Emotional problems of gifted students, 98
Relationship between leadership participation in college and after college, 110
Personal values and achievement in college, 137
The screening and referral function in a university study skills office, 145
The status and roles of head residents, 203
Orientation of students employed as part-time office workers on a university campus, 222
Facade orientation and academic achievement, 283
Survey of student attitudes towards campus activities at the university of Hawaii, 292
College courses in careers, 373
Working in private homes for room and board, 376
Interpreting the college student to prospective employers, government agencies, and graduate schools, 576
Extra-measurement use of tests in counseling, 658
Influence of dogmatism on counseling, 662
Influencers of occupational choice, 666
Student personnel work—future trends, 704
Educational experiences, academic interests, and curriculum choices, 717

SCHOOL (SECONDARY AND OTHER)
An intensive vocational counseling program for slow learners in high school, 21
The critical ninth grade: vocational choice or vocational exploration, 106

Occupational information for junior high school youth: introduction, 115
Developmental stage and developmental needs at the junior high school level, 116
Objectives of occupational information for junior high school youth, 118
Integrating occupational materials into the curricular process, 120
The use of occupational information for the junior high school age group, 124
A pilot study in local research with differential aptitude test battery, 128
The function of counseling as perceived by high school students, 133
Research by states on the teaching of occupations, 218
Dissemination of guidance information using data-processing equipment, 220
Organization of guidance for gifted children, 275
Counselors and discipline, 349
Group guidance: two processes, 591
School guidance: a four-dimensional model, 645
Counseling the adolescent girl on personal problems, 672
How parents perceive the counselor's role, 698
Factors influencing teacher attitudes toward and participation in guidance services, 729
The counselor's role in the early identification of gifted children, 735

SPECIAL GROUP
Quantitative measurement in the initial screening of rehabilitation potential, 262
An index of ease or difficulty of rehabilitation, 352
Referral information preferences of vocational rehabilitation counselors and ES placement personnel, 563
The vocational adjustment shop, 630
Barriers to effective rehabilitation: counselor opinion, 710

## Profession

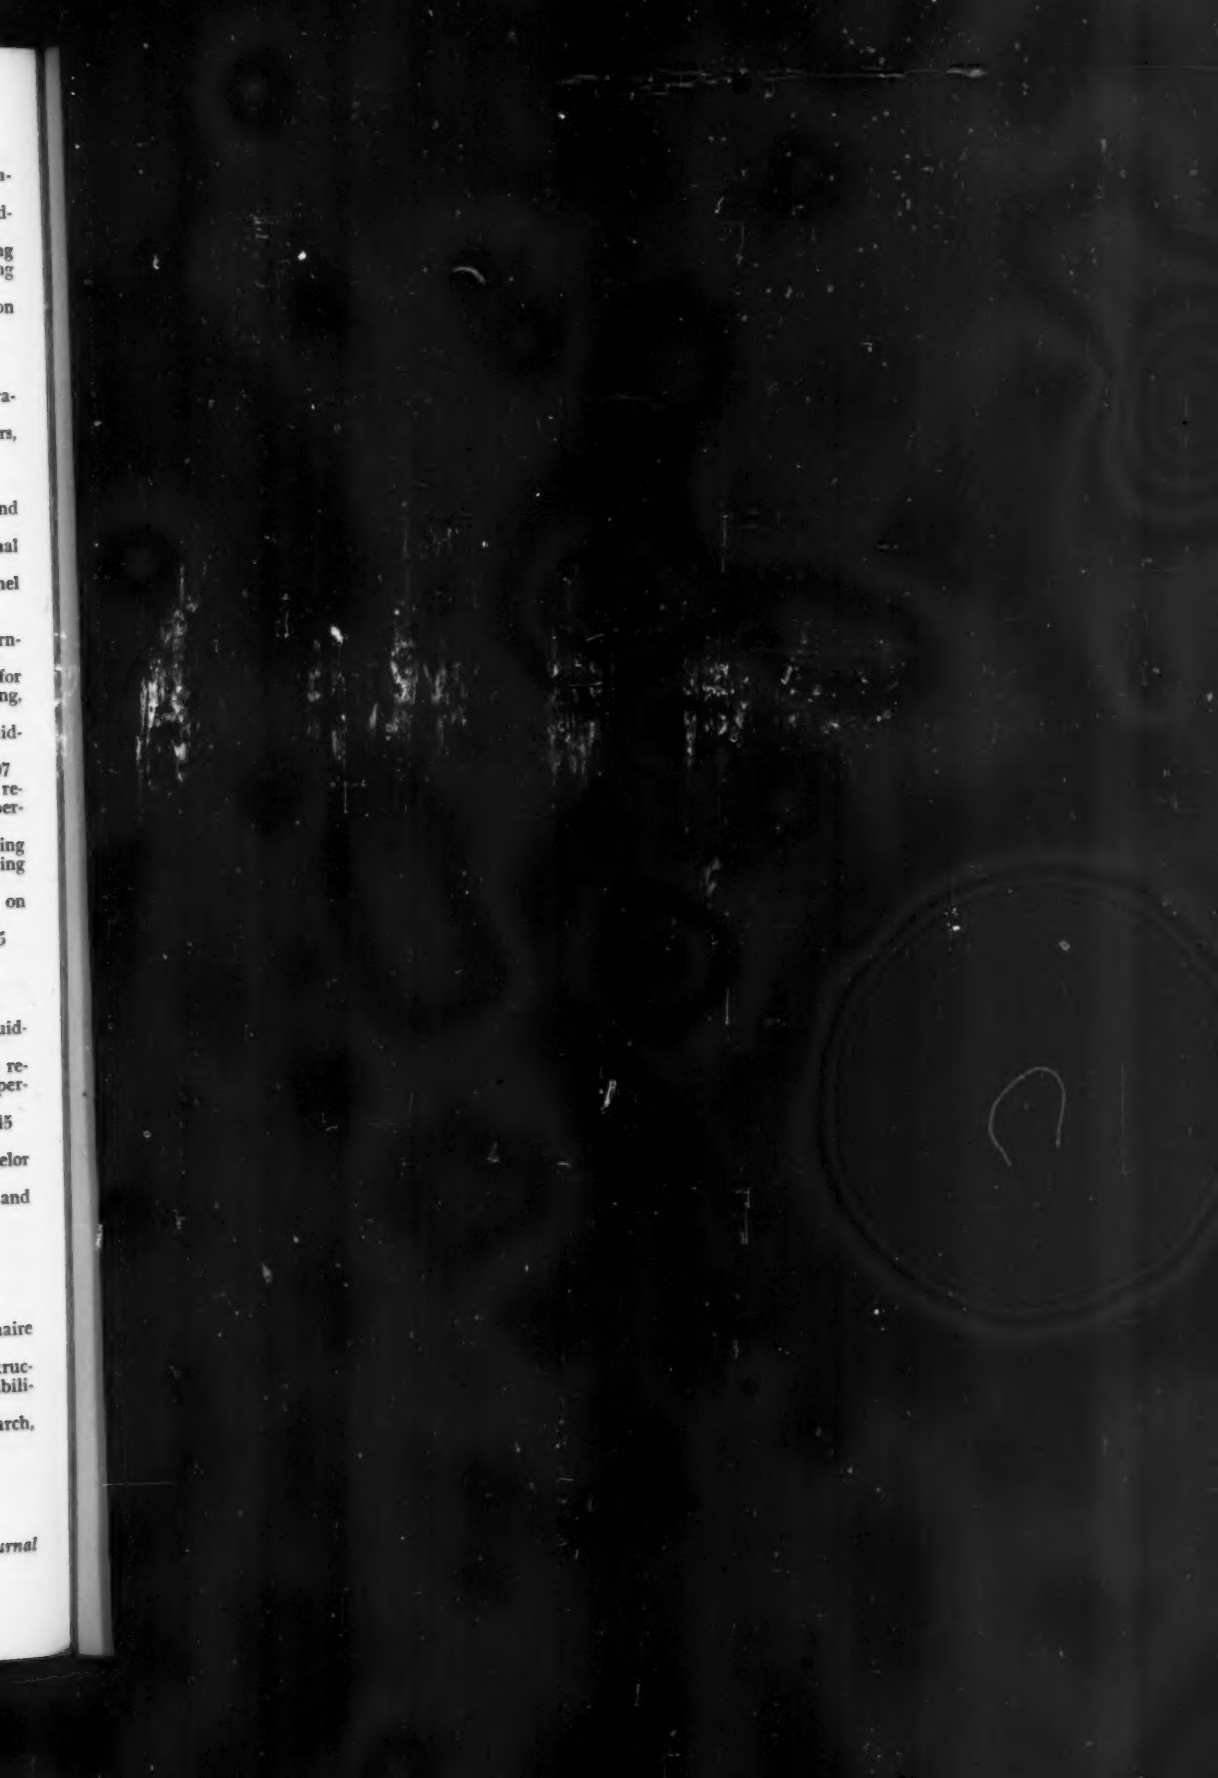
SPECIALTIES
The status and roles of head residents, 203
Counseling the blind, 210
More than a decade of training guidance and personnel workers, 287
The selection of school counselors, 355
Attitudes toward blind counselors in state rehabilitation agencies, 367
College courses in careers, 373

STANDARDS AND ETHICS
Counseling: philosophy or science, 11
Guidance Institutes—N.D.E.A., 207

SELECTION
Counseling: philosophy or science, 11
The impact of N.D.E.A. upon counselor preparation, 37
Areas of preparation for school guidance workers, 45
The status and roles of head residents, 203
Guidance institutes—N.D.E.A., 207
More than a decade of training guidance and personnel workers, 287
High school counselors evaluate their formal preparation, 303
Supervised field practice in student personnel work, 308
The selection of school counselors, 355
Attitudes toward blind counselors in state rehabilitation agencies, 367
A counselor development program meets a guidance manpower need, 472
An evaluation of the lecture and role-playing methods in the development of interviewing skills, 583
The effects of short-term group counseling on prospective counselors, 634

TRAINING AND SUPERVISION
Counseling: philosophy or science, 11
The impact of N.D.E.A. upon counselor preparation, 37
Areas of preparation for school guidance workers, 45
The status and roles of head residents, 203
Guidance institutes—N.D.E.A., 207
More than a decade of training guidance and personnel workers, 287
High school counselors evaluate their formal preparation, 303
Supervised field practice in student personnel work, 308
The selection of school counselors, 355
The San Diego State College counseling internship: a "team" approach, 382
Fellowships, scholarships, and assistantships for guidance and personnel graduate training, 1961–1962, 405
A counselor development program meets a guidance manpower need, 472
An evaluation of a county guidance program, 507
Referral information preferences of vocational rehabilitation counselors and ES placement personnel, 563
An evaluation of the lecture and role-playing methods in the development of interviewing skills, 583
The effects of short-term group counseling on prospective counselors, 634
School guidance: a four-dimensional model, 645

RELATIONSHIPS
Counselors and discipline, 349
The selection of school counselors, 355
A counselor development program meets a guidance manpower need, 472
Referral information preferences of vocational rehabilitation counselors and ES placement personnel, 563
School guidance: a four-dimensional model, 645
Student personnel work—future trends, 704
Barriers to effective rehabilitation: counselor opinion, 710
Factors influencing teacher attitudes toward and participation in guidance services, 729

## Research Methodology


Methodological problems in evaluation, 270
A comparative study of the mailed questionnaire and the interview in follow-up studies, 569
Some fundamental propositions in the construction of evaluation units in vocational rehabilitation, 586
Structure: an essential framework for research, 639
